2025

15th Asia Steel Forum & International Metal Recycling Conference

 September 24~25, 2025

 Hilton Tokyo Odaiba

2025 Asia Steel Forum & International Metal Recycling Conference is an event that aims to promote exchanges within the industry and enhance mutual understanding between stakeholders in the areas of capacity ramp-ups, market potential, and technological advancements for boosting sustainable methods of steel-making and scrap metals industry.

The conference will bring together key steel industry stakeholders from China, Japan, India, and Korea, along with invited participants from Southeast Asia, USA and Europe, will focus on critical topics like green steel production and the scrap metal business.

Key Focus Areas:

Regional & Global Steel Collaboration

- Challenges on the rising protectionism and pathways to collaboration
- Southeast Asia's emerging steel demand & sustainability challenges
- Over capacity concern in key steel markets and solutions

Green Steel Transition

- Decarbonization strategies (hydrogen-based steelmaking, carbon capture, etc.)
- Policy frameworks & incentives for low-carbon steel
- Decarbonizing Steel Through Scrap & DRI
- Future EAF and scrap steel supply and demand

250+
Participants

35+
VIP Speakers

20+
Countries

CONFERENCE AGENDA

DAY 1 | September 24, Wednesday | Green Steel & Steel Market

Morning Sessions:

| | |
|-------------|---|
| 09:00~09:15 | Opening Address |
| 09:15~09:45 | The Future of China's Steel Industry: Advancing Through High-Quality Steel Development <i>Wang Yingsheng / CISA Vice Chairman</i> |
| 09:45~10:15 | Innovating Toward Net-Zero: Decarbonization in Japanese Steel Production <i>Hitoshi Dohnomae / General Manager of Nippon Steel Corporation Environment Division</i> |
| 10:15~10:45 | Green Steel and Global Growth: China's Sustainable Strategy for International Markets <i>Chinese steel mill</i> |
| 10:45~11:15 | Korean Steel Company: Green Steel Strategy <i>Hong Joonyoung / Senior Vice President, Head of POSCO International Trade Affairs Office</i> |
| 11:15~11:45 | The Indian Steel Boom: Opportunities & Challenges in a Globalized Market <i>India Steel Mill</i> |
| 11:45~12:15 | The Green Steel Strategy of Turkey's steel manufacturers <i>Turkey Steel Mill (TBD)</i> |
| 12:15~13:45 | Lunch Buffet Break |

Afternoon Sessions:

| | |
|-------------|---|
| 13:45~14:15 | China steel market outlook <i>Wang Jianhua / Mysteel Chief Analyst</i> |
| 14:15~14:45 | Japan steel market outlook <i>Atsushi Yamaguchi / Senior Analyst of SMBC Nikko Securities Inc.</i> |
| 14:45~15:15 | Navigating New Realities: Russia & CIS Market Dynamics in Transition <i>Marina Uglovskaya / GM of Rusmet</i> |
| 15:15~15:30 | Coffee Break |
| 15:30~16:00 | Philippines and South East Asia Steel Outlook: Trends, Opportunities and Challenges <i>Pek Hoong Chong / Chief Technology Officer of SteelAsia</i> |
| 16:00~16:30 | EAF Capacity and Scrap Supply and Demand Outlook Bangladesh <i>Salehin Musfique Sadaf / Strategy & Transformation Director of GPH Group Ltd</i> |
| 16:30~17:00 | Future Outlook for the Spread of DRI and the Latest Technologies <i>Umehara / Kobe Steel</i> |
| 17:00~17:30 | Electric Smelters, Upgrading of Low- to Medium-Grade Iron Ore for DRI Applications <i>Primetals Technologies</i> |
| 18:30~21:00 | Gala Dinner |

Simultaneous interpretation will be provided in three languages.

DAY 2 | September 25, Thursday | Steel Scrap

Morning Sessions:

| | |
|-------------|---|
| 09:00~09:15 | Opening Address |
| 09:15~09:45 | Challenges facing China's scrap industry and strategy to overcome them <i>Feng Helin / CAMU</i> |
| 09:45~10:15 | Global Scrap & DRI demand and supply overview <i>Seiichi Hayashi / CEO of Steel Recycling Research Japan</i> |
| 10:15~10:45 | Geopolitics and Tariffs: Opportunities and Challenges on Steel Scrap Supply Chains Worldwide <i>Adam Shaffer / Recycled Materials Association (ReMA) International Trade and Global Affairs AVP</i> |
| 10:45~11:15 | Steel mill strategy under the environment of decarbonization <i>Mao Rui / Deputy Chief Environmental Engineer of Shagang Steel Co., Ltd.</i> |
| 11:15~11:45 | Future Steel Scrap Procurement Strategy <i>Tokyo Steel</i> |
| 11:45~12:15 | The Current Status and Future Challenges of Turkey's Ferrous Scrap Imports <i>Leading Scrap Exporters to Turkey</i> |
| 12:15~13:30 | Lunch Buffet Break |

Afternoon Sessions:

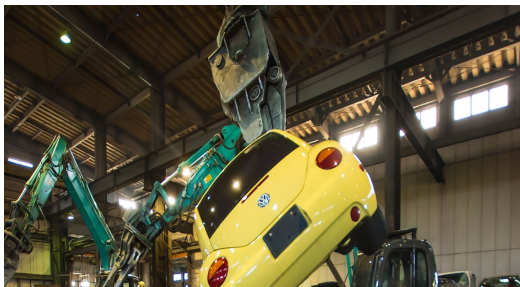

| | |
|-------------|--|
| 13:45~14:15 | Situation & Challenges for the Rapidly Growing Number of Scrap Producers in India <i>Sumit Agarwal / Founder & Director of BigMint</i> |
| 14:15~14:45 | Steel Scrap Optimization: Japan and Vietnam Market Approaches <i>Makoto Inafuku / Chairman of NANSEI CO.,LTD</i> |
| 14:45~15:15 | Korea Steel Scrap Market Trends Outlook <i>Soohee Kim / CEO of Hanshin S.&</i> |
| 15:15~15:45 | China's Supply and Demand Situation of Steel Scrap & Price Trend Forecast <i>Jin XiongLin / Steel Scrap Chief Analyst of Mysteel</i> |
| 15:45~16:00 | Coffee Break |
| 16:00~16:30 | International Regulatory Crossroads: Reshaping Global Base Metals and E-Scrap Recycling Markets <i>BIR</i> |
| 16:30~17:00 | From Regulation to Opportunity: Adapting to EU Strategic Policies and Winning in the Metal Recycling Industry <i>Shinobu Tachibana / Environmental Business Manager of ENVIPRO HOLDINGS INC.</i> |
| 17:00~17:30 | Russia's Non-Ferrous Scrap and Secondary Alloys Market: Domestic Challenges & Global Opportunities <i>Konyakhin Vladimir / International relations director of Yug-Met Company</i> |
| 18:30~21:00 | Cocktail/ Buffet Dinner |

Please note that the conference agenda and speakers may be subject to change.
Simultaneous interpretation will be provided in three languages.

Plant Tour | September 26, Friday

Group A

ECO-R + ReTem

ECO-R is Japan's largest and most advanced ELV dismantling and resource recycling company, committed to reusing all materials from end-of-life vehicles and eliminating automobile-derived shredder dust.

<https://www.eco-r.jp/>

RETEM provides resource recycling and reuse services, trades ferrous and non-ferrous metal materials, carries out demolition and removal of buildings and structures, and offers consulting on resource circulation and recycling.

<https://www.re-tem.com/>

Group B

FUWA + Nansei

Fuwa's Tokyo Yard spans 20,000 square meters with a scrap storage capacity of 40,000 tons. It features a rare privately owned berth—400 meters long and 12 meters deep—capable of accommodating vessels up to 30,000 tons. As one of Japan's key export hubs for scrap.

<https://fuwa-metal.co.jp/>

The Nansei factory in Funabashi City was established on October 1, 2015, covering an area of about 9240 square meters, adjacent to Funabashi Port, with a unique geographical advantage, and exporting 700,000 tons of iron per year.

<https://nanseisteel.com/services-an/intro-page/metalbay/>

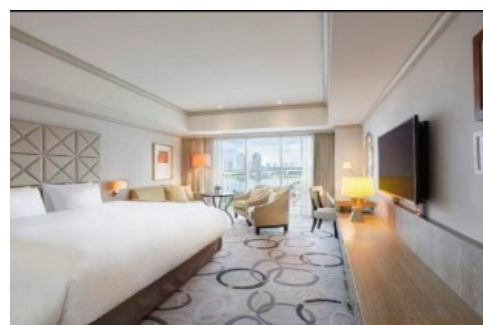

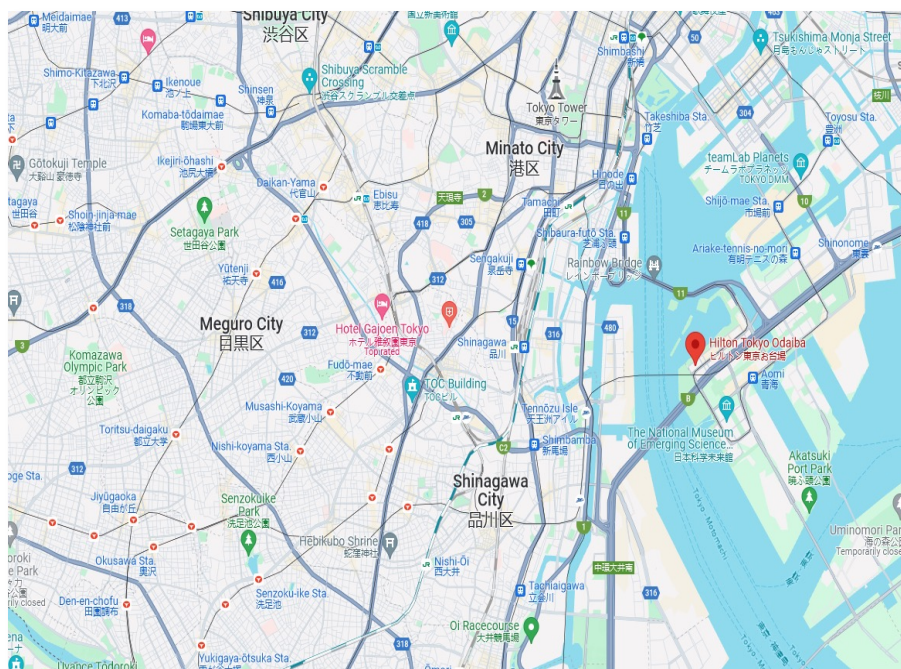

1. Max 20 person per group. Only English translation will be provided for the factory tour
2. Please be aware that if less than twelve people apply or register for the factory tour, it may be cancelled.

Conference Fee

| | Standard Rate | Early Bird Before Jul 31, 2025 |
|--|---------------|-----------------------------------|
| Two-days conference ticket | USD 1,600 | USD 1,400 |
| Day 1 or 2 (one-day conference ticket) | USD 1,000 | USD 800 |
| Plant Tour (Sep 26) | USD 250 | |

*The two-day pass allows different employees from the same company to attend on separate days (e.g., one person per day)

Hotel Information

Hilton Tokyo Odaiba

Address: 1 Chome-9-1 Daiba, Minato City, Tokyo 135-8625, Japan

Room Rate : JPY ¥ 35,874(VAT included) | Single occupancy per room
JPY ¥ 39,182(VAT included) | Double occupancy per room
