15th Asia Steel Forum

International Metal Recycling Conference

September 24~25, 2025

Hilton Tokyo Odaiba

2025 Asia Steel Forum & International Metal Recycling Conference is an event that aims to promote exchanges within the industry and enhance mutual understanding between stakeholders in the areas of capacity ramp-ups, market potential, and technological advancements for boosting sustainable methods of steel-making and scrap metals industry.

The conference will bring together key steel industry stakeholders from China, Japan, India, and Korea, along with invited participants from Southeast Asia, USA and Europe, will focus on critical topics like green steel production and the scrap metal business.

Key Focus Areas:

Regional & Global Steel Collaboration

- Challenges on the rising protectionism and pathways to collaboration
- Southeast Asia's emerging steel demand & sustainability challenges
- Over capacity concern in key steel markets and solutions

Green Steel Transition

- Decarbonization strategies (hydrogen-based steelmaking, carbon capture, etc.)
- Policy frameworks & incentives for low-carbon steel
- Decarbonizing Steel Through Scrap & DRI
- Future EAF and scrap steel supply and demand

250+ Participants

35+ VIP Speakers

20+ Countries

CONFERENCE AGENDA

DAY 1 | September 24, Wednesday | Green Steel & Steel Market

Morning Sessions:	
09:00~09:15	Opening Address
09:15~09:45	**The Future of China's Steel Industry: Advancing Through High-Quality Steel Development** *Wang Yingsheng / CISA Vice Chairman*
09:45~10:15	**Japanese steel industry initiatives: Decarbonization and Green Steel** *Hitoshi Dohnomae / GM of The Japan Iron and Steel Federation / Nippon Steel Corporation*
10:15~10:45	**Green Steel and Regional Cooperation: A Sustainable Path for Steel Companies** *Liang Jun / Management Institute Director of Baowu Steel Group*
10:45~11:15	**Korean Steel Company: Green Steel Strategy** *Hong Joonyoung / Senior Vice President , Head of POSCO International Trade Affairs Office*
11:15~11:45	**Indian Steel Sector Evolution and Green Transformation Initiatives** *Yogesh Bedi / Business Head of JSW Steel Limited Green Steel and Recycling*
11:45~12:15	**From China to the World Stage: CITIC Pacific Special Steel's Globalization Strategy** *Wu Zhong Xian / Deputy General Manager of CITIC Pacific Special Steel International Trade Co., Ltd.*
12:15~13:45	**Lunch Buffet Break (lunch box featuring local specialties)**
Afternoon Sessions:	
13:45~14:15	**China steel market outlook** *Wang Jianhua / Mysteel Chief Analyst*
14:15~14:45	**Japan steel market outlook** *Atsushi Yamaguchi / Senior Analyst of SMBC Nikko Securities Inc.*
14:45~15:15	**Navigating New Realities: Russia & CIS Market Dynamics in Transition** *Viktor Kovshevnyi / Director of the National Recycling Association RUSLOM.COM*
15:15~15:30	**Coffee Break**
15:30~16:00	**Philippines and South East Asia Steel Outlook: Trends, Opportunities and Challenges** *Pek Hoong Chong / Chief Technology Officer of SteelAsia*
16:00~16:30	**EAF Capacity and Scrap Supply and Demand Outlook Bangladesh** *Salehin Musfique Sadaf / Strategy & Transformation Director of GPH Group Ltd*
16:30~17:00	**Decarbonization in the Steel Industry and Direct Reduced Iron** *Naoki Umehara / Head of Kobe Steel Iron Unit Division*
17:00~17:30	**Introduction of Smelter for processing DRI made from low grade iron ore** *Gerald Wimmer / Vise President of Primetals Technologies Austria Converter Steelmaking*
18:30~21:00	**Gala Dinner**

Simultaneous interpretation will be provided in three languages.

DAY 2 | September 25, Thursday | Steel Scrap

Morning Sessions:	
09:00~09:15	Opening Address
09:15~09:45	**Challenges facing China's scrap industry and strategy to overcome them** *Feng Helin / CAMU*
09:45~10:15	**Global Trends in Iron Resources and Strategies of Developing Countries** *Seiichi Hayashi / CEO of Steel Recycling Research Japan*
10:15~10:45	**Geopolitics and Tariffs: Opportunities and Challenges on Steel Scrap Supply Chains Worldwide** *Adam Shaffer / Recycled Materials Association (ReMA) International Trade and Global Affairs AVP*
10:45~11:15	**Steel mill strategy under the environment of decarbonization** *Mao Rui / Deputy Chief Environmental Engineer of Shagang Steel Co., Ltd.*
11:15~11:45	**Scrap Procurement Strategy of Tokyo Steel** *Takuya Sato / Tokyo Steel Purchasing Department Scrap Strategy Expert*
11:45~12:15	**From Regulation to Practice: Green Steel in Vietnam and Singapore** *Yap Ee Gin / Carbon Technical Lead of Climate Asia Pte Ltd*
12:15~13:30	**Lunch Buffet Break (lunch box featuring local specialties)**
Afternoon Sessions:	
13:45~14:15	**Scrap vs. The rest: Strategic realities of recycling, substitution, and supply in India's steel future** *Sachin Shetty / Managing Partner of Quesrow Consulting*
14:15~14:45	**Korea Steel Scrap Market Trends Outlook** *Soohee Kim / CEO of Hanshin S.&.*
14:45~15:15	**Positioned for Growth: Turkey's Steel Opportunity Between East and West** *Turkey Steel Mill*
15:15~15:45	**China's Supply and Demand Situation of Steel Scrap & Price Trend Forecast** *Jin XiongLin / Steel Scrap Chief Analyst of Mysteel*
15:45~16:00	**Coffee Break**
16:00~16:30	**International Regulatory Crossroads: Reshaping Global Base Metals and E-Scrap Recycling Markets** *Alev Somer / Director for Trade and Environment at The Bureau of International Recycling. BIR.*
16:30~17:00	**From Regulation to Opportunity: Adapting to EU Strategic Policies and Winning in the Metal Recycling Industry** *Shinobu Tachibana / Environmental Business Manager of ENVIPRO HOLDINGS INC.*
17:00~17:30	**Russia's Non-Ferrous Scrap and Secondary Alloys Market: Domestic Challenges & Global Opportunities** *Vladimir Koniakhin / International relations director of Yug-Met Company*
18:30~21:00	**Cocktail/Buffet Dinner**

Please note that the conference agenda and speakers may be subject to change.
Simultaneous interpretation will be provided in three languages.

Plant Tour | September 26, Friday

Group A

ECO-R + Re-Tem

未来を拓くエコロジー
eco-R

ECO-R is Japan's largest and most advanced end-of-life vehicle (ELV)dismantling and resource recycling company. Committed to environment sustainability, we maximize the reuse of materials from ELVs to completely eliminate automobile-derived shredder dust.

https://www.eco-r.jp/

Re-Tem

Re-Tem provides resource recycling and reuse services, trades ferrous and non-ferrous metal materials, carries out demolition and removal of buildings and structures, and offers consulting on resource circulation and recycling.

https://www.re-tem.com/

Group B

FUWA METAL

FUWA METAL

Fuwa's Tokyo Yard:
Fuwa's Tokyo Yard spans 20,000 square meters with a scrap storage capacity of 40,000 tons. It features a rare privately owned berth—400 meters long and 12 meters deep—capable of accommodating vessels up to 30,000 tons. As one of Japan's key export hubs for scrap.

Fuwa's Funabashi Yard:
Located in Funabashi Central Port, one of Japan's leading ports for ferrous scrap exports, this yard serves as a key hub for scrap exports from the Tokyo metropolitan area and surrounding eastern Japan (known as the Kanto region). It can accommodate large vessels with a maximum loading capacity of 20,000 tons, and in recent years has been used for exports to distant countries such as Bangladesh and India. As the yard is situated within the Funabashi Central Port area, it will be observed from the bus during the visit.

https://fuwa-metal.co.jp/

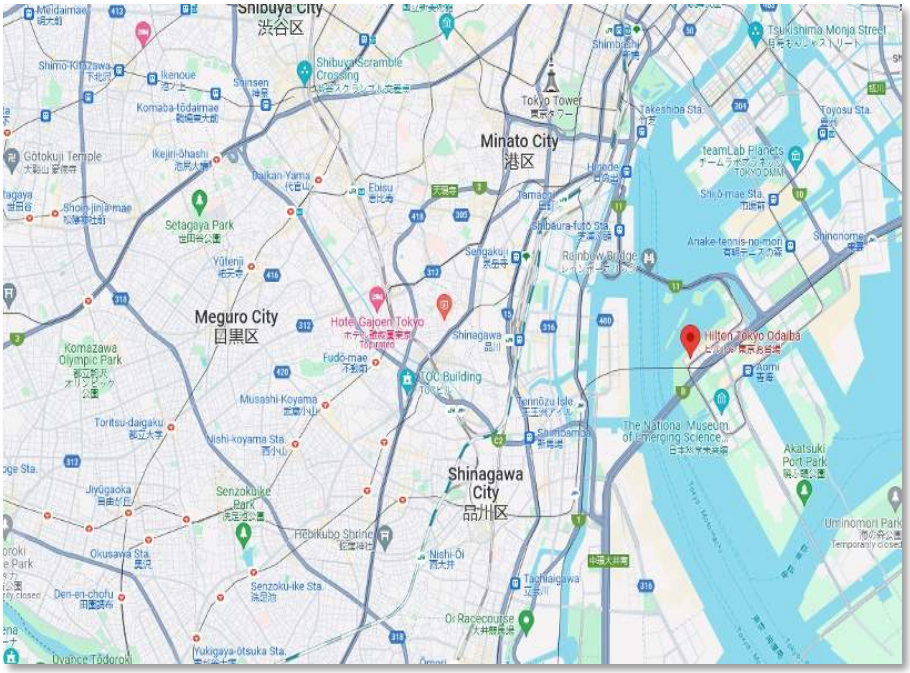
1. *Max 20 person per group. Only English translation will be provided for the factory tour*
2. *Please be aware that if less than twelve people apply or register for the factory tour, it may be cancelled.*

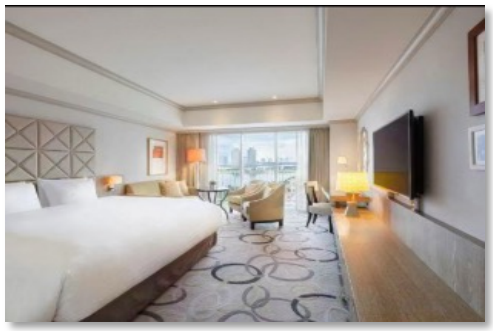
Conference Fee

	Standard Rate	Early Bird Before Aug 10, 2025
Two-days conference ticket	USD 1,600	USD 1,400
Day 1 or 2 (one-day conference ticket)	USD 1,000	USD 800
Plant Tour (Sep 26)	USD 250	

*The two-day pass allows different employees from the same company to attend on separate days (e.g., one person per day)

Hotel Information





Hilton Tokyo Odaiba

Address: 1 Chome-9-1 Daiba, Minato City, Tokyo 135-8625, Japan
Room Rate : JPY ¥ 35,874(VAT included) | Single occupancy per room
JPY ¥ 39,182(VAT included) | Double occupancy per room
